

Easy Maintenance

Viscon Japan developed new design from Users points of view. **(First in the industry)**
By our new design, users can repair very simply
and reduce repairing time in great degree.

Easy Pump detach/attach

No necessary to use tools. By hand OK!!

After loosening round bolt by hand, Only sliding pump, can detach pump very easily.

Easy maintenance design of electric room

No necessary to use tools, only unlock top door.

Easy to open top door of electric room. Can see all the electric room from the top
And easy to repair.
